

Piano Project

Welcome to the Piano Project! This application allows you to import and play MIDI files visually and interactively. Below is a short guide to help you get started.

How to Add a New Song

To import a new MIDI file:

1. Click on the  **Gear icon** in the top corner of the app.
2. Select **"Importer Midi"** from the menu.
3. Choose your MIDI file from your device to add it to your library.

 **Do not select a file from the imports folder.**

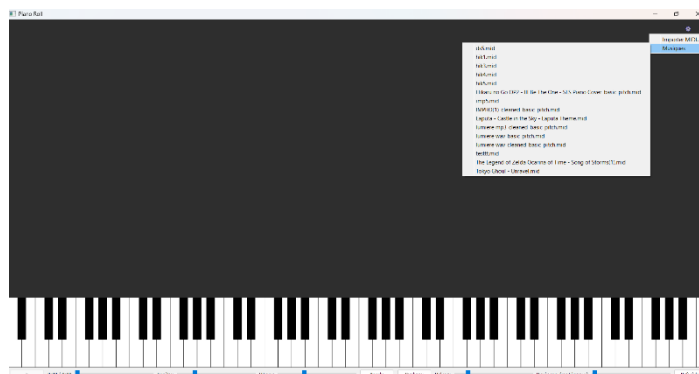

This folder already contains all previously imported songs and is automatically loaded by the app.

How to Play a Song

Once your song is imported:

1. Click again on the  **Gear icon**.
2. Choose **"Musiques"** from the menu.
3. Select the song you want to play from the list.

☒☒ Options and Customization

The application also provides several customization settings available:

- **Time Bar:** Display a timeline to visualize the music progression.
- **Screen Width:** Adjust the visual width of the falling notes.
- **Music Speed:** Change how fast the song plays.
- **Loop Music:** Enable or disable looping of the current song.
- **Falling Note Colors:** Customize the colors of the notes as they fall.
- **Accuracy Refinement:** Toggle advanced visual features such as:
 - **Velocity** (note intensity)
 - **Note Length** (note duration)

Enjoy your music! 🎵
